TEFL Course Review

This 120 hour TEFL is perfect for those who have a full time job, and would prefer to study and advance their goals during their own time and at their own pace. The course is filled with good content, and will take some time to get through, but with some perseverance and dedication you will succeed! MyTefl provides 24/7 support regarding course content, CV editing and employment search. Taipei, here I am! Thank you MyTefl!

Tabitha

I chose myTEFL based on the quality and quantity of reviews I found online, and I was not disappointed! I enjoyed the progression of lessons and the assessments to make sure I grasped the concepts. I not only know more about the mechanics of the English language, but also have helpful use-cases and examples, as well as tons of new knowledge on how to manage a class. Customer support was always great and responsive to answer either academic or general questions – there was always a human on the other end.

Megan (USA)

“Students who complete a myTEFL course are sought after by quality schools and institutions looking for great teachers. Their courses are carefully tailored to meet the diverse needs of ESL students.”

GoAbroad.com

One of the best parts about this course must be the lifetime job placement service. The team have set me up with a teaching job in China (including free accommodation!), helped me to prepare myself and gather the necessary documents. It's made the jump to teaching overseas SO much easier.

BEING A TEFL TEACHER HELPS
THE WORLD

Training and empowering teachers to travel the world and share language is rewarding in its own right. English teachers are explorers, reaching out to cultures and destinations most people will never discover. They break down the barriers of communication, they promote tolerance, understanding and respect between cultures, and they share experiences and friendships that transcend the ordinary. We at myTEFL are proud of being a part of the larger international TEFL community.
